1. Introduction

Thank you for selecting Essent Guaranty, Inc. (hereinafter referred to as "Essent") as your mortgage insurer. This underwriting guideline manual is designed to be a quick reference for meeting your mortgage guaranty insurance needs and addresses the types of loans that are generally eligible for insurance with Essent. If you have any questions pertaining to the interpretation of these guidelines, please contact the Essent Underwriting or Risk Management department:

1.1. Philosophy

Essent is committed to insuring quality loans that make sense for everyone: lenders, investors, and home buyers alike. Essent offers mortgage insurance on loans originated as "A" quality business. Essent does not insure A-minus or limited documentation loans. There are certain requirements that must be met for loans to be eligible for Essent mortgage insurance due to the risk they present. Our commitment to you and the housing finance industry is a responsibility we take seriously, as we work to encourage fair lending, open new markets, and expand our insurance services.

In the event that Essent guidelines are silent, when the loan is being delivered to Fannie Mae, Fannie Mae standard guidelines are to be followed, and similarly, if final delivery will be to Freddie Mac, Freddie Mac standard guidelines are to be followed (Agency standard as outlined in the Agency Selling Guides available to all lenders without the need for a lender variance or amendment to the lender's master agreement).

We expect that Essent's underwriting guidelines will be followed in most cases. Exceptions to the product eligibility requirements as outlined within the applicable Product Eligibility Matrix in Section 2.0 are not permitted, and require an underwriting submission to Essent for review and approval. For all other situations whereby a loan fails to meet Essent guidelines, the loan may be reviewed for any compensating factors that may warrant an exception to the underwriting guidelines. Any compensating factors should be meaningful and well documented.

1.2. Automated Underwriting Systems (AUS)

Essent will insure loans that are manually underwritten or are underwritten by an approved automated underwriting system. Prudent underwriting and reasonableness tests should be applied to all loans processed through an AUS. AUS loans submitted for underwriting are carefully evaluated and all loan factors are analyzed and considered prior to rendering an underwriting decision. The credit report used by the Agency AUS to determine its recommendation or risk classification is the credit information that the lender must use when determining the loan representative FICO score for pricing or eligibility.

1.3. Approved Agency Automated Underwriting Systems (AUS) - Fannie Mae's Desktop Underwriter® (DU)/ Freddie Mac's Loan Prospector® (LP) Recommendations

Provided the loan meets the product eligibility criteria of the applicable Essent Product Eligibility Matrix (as outlined in section 2) and the minimum documentation standards outlined below, Essent does not require additional guideline overlays beyond the following items for loans that receive a Desktop Underwriter® "Approve/Eligible" or Loan Prospector® "Accept/Eligible" recommendation:

- Non-Permanent Resident Aliens must meet the eligibility requirements as denoted in Section 3.1.
- Non-Arms Length Transactions must be submitted to Essent for underwriting
- Maximum 30% investment property concentration for condominium project eligibility

Minimum documentation must comprise one current paystub (indicating year-to-date earnings) and the most recent W-2 for salaried income, and personal tax returns for the most recent year for self-employed income. Evidence of sufficient funds to cover the down payment, closing costs, and Essent's two months PITI reserve requirement must be documented at a minimum with one month of current bank or financial asset statements covering a 30-day period. All DU findings and LP feedback certificate conditions must be satisfied and the DU/LP decision must be present in the file.

Appraisal methodology: Essent will accept appraisals completed using Fannie Mae or Freddie Mac form 2055 with interior/exterior or exterior only inspections when a DU or LP finding/feedback certificate indicating acceptability is present in the loan file. Essent does not accept valuations based on AVMs or BPOs. Property inspection waivers or alternatives (PIW/PIA) are not acceptable to Essent.

As the versions of both DU and LP are updated, Essent will complete a careful evaluation for acceptance which may result in subsequent updates to the eligibility requirements as stated within this Underwriting Manual.

1.4. Other Proprietary Automated Underwriting Systems (AUS)

Essent does not automatically consider recommendations from automated underwriting systems as eligible to be insured, however, Essent does take the recommendation into consideration as a tool to identifying risk attributes of the file. The loans must fit Essent's guidelines as published in this underwriting manual.

1.5. Delegated Underwriting Authority

Essent's counterparties approved for delegated underwriting authority may be subject to additional requirements under the Delegated Underwriting Agreement. Refer to section 11.4. for Non-Delegated Underwriting Submission Requirements.

The following are ineligible under Delegated Underwriting Authority:

- Non-Arms length transactions
- Assumptions/Partial releases
- Properties that were acquired by the seller less than 180 days from the date of the loan application
- Loans with LTV/CLTV >95%

3. Borrower Eligibility Requirements

The credit profile is one of the most critical indicators of the borrower's willingness and ability to repay debt. A thorough analysis of the borrower's income, assets, liabilities, credit history and property are required. In some instances, Essent's guidelines expand or differ from Agency guidelines and in such instances, the provisions of this underwriting guide control those differences.

- A Residential Mortgage Credit Report (RMCR), or
- A two-repository merged in-file credit report covering a minimum of two years. (Refer to section 3.3.2. below for specific trade line requirements)

- Credit report and credit references must be dated within 120 days of the closing date for existing homes and new construction, including construction-to-permanent loans

3.3.1. Loan Representative FICO Score

The loan representative FICO score is defined as the lowest individual representative FICO score across all borrowers. The individual representative FICO score is determined as the middle of three or the lower of two repository credit scores. When two credit scores are

obtained, choose the lower score. When three credit scores are obtained, choose the middle score. (If two of the three scores are duplicates, choose the duplicate score as the representative FICO score. For example: 680, 700, 680 - 680; 700, 680, 700 - 700). A minimum of two valid credit scores must be obtained for each borrower in order to calculate the individual representative FICO score.

3.3.2. Trade Line Requirements

A trade line is defined as a revolving or installment payment account. The trade line must not be in dispute and must clearly belong to the borrower in order to be eligible for consideration. The following requirements must be met:

- The credit report must reflect a minimum of 3 traditional trade lines evaluated for at least 12 months for each borrower
- Trade lines with collections, judgments, charge-offs, repossessions, foreclosures, bankruptcy repayment plans, and credit counseling are not counted toward the minimum trade line requirements

3.3.3. Payment History

Essent generally defines the acceptable level of late payments as follows:

Obligation Type	Last 12 Months	Last 13-24 Months
Mortgage History	0 X 30	1 X 30
Installment/Revolving History	0 X 60	1 X 60

Mortgage payment history is required on all loans regardless of credit score and may be documented by the following:

- Standard mortgage verification from mortgage servicer, or
- Credit report, or
- Canceled checks, or
- Year-end mortgage statement(s) with payment history supplemented with canceled checks for the months elapsed since year-end

3.3.4. Re-Established Credit

Essent defines re-established credit as a minimum of 3 established traditional trade lines with 2 accounts active in the past 24 months with no late payments. Trade lines must be documented on a traditional credit report.

3.3.5. Bankruptcy

For borrowers with a history of bankruptcy, Essent requires satisfactory re-established credit as defined in section 3.3.4. in addition to the following requirements:

Eligibility Requirements for Chapter 7 & 11 Bankruptcies:

8.1. Loan Modifications

Essent considers a loan modification as any change to an insured loan which would involve a modification agreement or a new Note with coverage continuing under a previously issued commitment certificate. Loan modifications are considered on a case-by-case basis and must be approved by Essent.

8.2. Assumptions/Partial Releases

All assumptions and partial releases require pre-approval from Essent and are not eligible under delegated underwriting authority. The assumption and/or partial release request must be sent to Essent's Risk Management Department (see section 1 for contact information) and must include the 1003, credit report, supporting income documentation, asset verifications and sales contract.

8.3. Title Transfers

Essent considers title transfers as an assumption, which requires approval from Essent's Risk Management department (see section 1 for contact information).

8.4. Non-Retail Originations

A non-retail origination is a loan for which the origination or processing activities are performed by a different entity than the entity that closes and funds the loan. Eligibility for non-retail guidelines is subject to lender approval by Essent's Risk Management Department. Additional restrictions may apply.

8.5. Hazard/Flood Insurance Requirements

Essent requires the counterparty assure that standard hazard and flood insurance, as required in the Fannie Mae/Freddie Mac published guidelines, are in place and enforceable.

8.6. Power of Attorney

Permitted

9. Commitments

9.1. Final Commitments

Final commitments cannot be issued until certain documentation has been submitted and verified, including, but not limited to:

- Credit
- Income/Assets
- Employment
- Appraisal
- Property address
- Sales agreement

9.2. Extensions

Essent recognizes that there are circumstances that may warrant an extension. In this case, Essent may require an updated application, appraisal and borrower's credit information. Extensions require approval by Essent's underwriting department (see section 1 for contact information) and are subject to the underwriting guidelines that are in effect at the time the extension is requested.

9.3. Incomplete/Denied Applications

If credit or insurance is denied on the basis of information provided by the consumer reporting agency, the Fair Credit Reporting Act (FCRA) requires that the borrower be given a notice which identifies the consumer reporting agency and includes a statement of the applicant's rights under FCRA. In the event the counterparty has approved a loan and Essent has denied the mortgage insurance coverage, Essent will send the Statement of Denial to the applicant directly. When Essent is required to deliver the notice to the applicant (as required under FCRA), a combined Equal Credit Opportunity Act (ECOA) Statement of Denial and FCRA notice will be sent directly to the applicant and a copy sent to the counterparty.

10. Premium Plans

10.1. Premium Plans

Responsible underwriting to determine eligibility for mortgage insurance through Essent requires a thorough evaluation of many elements relating to a proposed home financing including credit history, loan type, loan purpose, occupancy status, property appraisal, loan-to-value ratio, debt service capacity, and other factors known to influence the likelihood of repayment on a mortgage loan. In developing premium plans and determining premium rates, Essent seeks to take these factors into account and establish plans, rates, and rate adjustments that provide fair compensation to Essent for providing insurance against the risk of loss in the event of borrower default on a specific mortgage.

The premium rate applicable to an insured mortgage is based on the rate in effect on the date Essent receives the initial mortgage insurance application. If loan data submitted to Essent is not correct and the loan receives an inappropriate premium rate, Essent reserves the right to apply the correct premium in accordance with the actual data and charge the submitting lender for any premium difference. If any material changes in loan eligibility factors or loan data occur prior to closing, the loan must be re-qualified and re-priced to current published rates.

The following premium plans are available from Essent to meet the various needs of borrowers who require mortgage insurance:

1. Annual premium plans: the first year's premium is paid at loan closing and subsequent renewal premiums are paid annually
2. Monthly premium plans: the first month's premium is paid at loan closing and subsequent renewal premiums are paid monthly with each monthly mortgage payment
3. Deferred monthly premium plans: instead of being paid at loan closing, the first month's premium and subsequent renewal premiums are paid monthly with each monthly mortgage payment
4. Single premium plans: a one-time, single premium is paid at closing and provides coverage until the loan amortizes to 78% of the original value
5. Financed premium plans: single premiums may be financed; eligibility guidelines are based on net CLTV and rates are based on net LTV; net CLTV and net LTV are calculated excluding the amount of premium financed into the loan amount

10.2. Methods of Payment

Essent offers borrower paid and lender paid mortgage insurance programs.

11. Submission Eligibility and Requirements

11.1. Business Channel Eligibility

Guidelines for channels other than retail are offered subject to a review of counterparty risk management processes by Essent's Risk Management Department, and may be subject to additional requirements.

11.2. Submission Methods

Essent offers several options for submitting loans for consideration for mortgage insurance. Regardless of the submission option, the counterparty is responsible for the accuracy and validity of the information submitted and that all information is consistent with the information that is included in the final loan file in which the underwriting decision was based on. Streamlined submissions are not permitted. The two categories for delivery are:

- Manual delivery - the following is required:
 - 1003/1008
 - Merged credit report
 - Income/Assets documentation
 - Employment verification
 - Full appraisal – HVCC compliant
 - Sales/Purchase agreement - if applicable

- Electronic delivery - Counterparty is required to include all information as required on the Mortgage Insurance Application and to insure the information is accurate and verified. In the event a submission is suspended a manual review will be required. Refer to Manual Delivery section above for requirements.

11.3. Pre-Qualifications/Pre-Approvals

Pre-qualifications and/or pre-approvals where the property is not identified at the time of submission as well as when complete documentation (borrower's credit profile) is not available are ineligible.

11.4. Non-Delegated Submissions

Essent requires a fully underwritten loan file in accordance with its own and/or investor guidelines as applicable, including all automated underwriting findings reports and third party vendor reports. In addition, the MI Only Application for insurance or Essent's MI Authorization form must be in the loan file.

12. Pricing Information

Essent monitors and updates contractual and licensing information that directly affect pricing and rates, and this information may change from time to time without advance notice.
